Why Support Is Needed

Opportunities for the Kingdom abound in the Northeast region of our country. Since the advent of the Northeast Regional Minister position in 2000, the number of member churches in the region has grown to over one hundred. At Gordon Conwell alone, 35 students have been licensed or ordained into the CCCC with several others remaining under Conference Care. Church multiplication is on the rise. Interest has never been higher from other churches and denominations wanting to know about our Biblically based, historically congregational fellowship. Existing churches are growing healthier through the support of the Conference and the Northeast Regional Minister.

Prayer and financial support is needed. If God ordains the ends, He also ordains the means. He will make a way, but the way He will do it is through us. Your support is needed to continue what has become a vital ministry to the Northeast.

*Rev Terry H. Shanahan
